

# 7" Open Frame Touch or Non-Touch Display, USB or HDMI Video

UM-760-OF - Non-Touch, USB UM-760C-OF - Capacitive Touch, USB UM-760CH-OF - Capacitive Touch, USB, HDMI

## 7" Open Frame USB Displays

Our UM-760-OF family is a small open frame monitor for applications that will be integrated into other equipment or enclosures. It has long-lasting molded metal product cycle-enclosures and is designed to provide the most cost effective solutions for consumer, retail POS and hospitality markets. Future generation panels can be phased in without external changes.

Now optionally available with HDMI input for video to supplement where USB video is not supported or inconvenient. It can be installed to almost any platform without drivers. Uniquely, the UM-760CH-OF still reduces the number of cables. While a typical HDMI touch display will require 3 separate cables, our HDMI touch displays only require 2 cables. This simplifies connection and makes for a more attractive installation.

#### Features:

- Weighs less than one pound and measures less than one inch thick.
- Displays in either landscape or portrait orientations
- Utilizes Displaylink™ for power and video over single USB connection. No separate power supply needed
- Multi-point capactive touch screen optional
- HDMI optional

## **Product Specs**

## **Display Size**

7 inch

#### Resolution

1024 x 600

## **Brightness**

250cd/m2

#### **Contrast Ratio**

700:1

#### **Connections**

USB or USB, HDMI

## **Viewing Angle**

75/75/70/75

## **Operating Temperature**

-20 to 60c

## **Power Consumption**

4W

#### **Mount Pattern**

Side Mount Brackets

## **Regulatory Certifications**

FCC, CE, ROHS, KC

#### **Applications:**

- POP/POS
- Secondary screen for productivity
- Gaming and entertainment
- Light industrial shop-floor automatic operation
- Digital signage
- Video conferencing
