

Level up your outdoor space with this Aiden 4-piece set. Perfect for any yard, balcony, porch or patio, this deep seating set can accommodate larger parties or intimate get-togethers. Friends, family and friends-that-feel-like-family can all kick back and relax bolstered by comfortable, quick drying cushions and pillows. The collection is crafted using two-tone, hand-woven PVC resin, giving you the appeal of wicker without the downsides like wear and tear and getting poked by small sticks. Rounding out the set, the adjustable coffee table is ready for all occasions—raise the table's height to for a quick bite or casual dinner. When not acting as a dining table, lower the table and use it as a classic coffee table. Each piece of the set is made using all weather materials, built to handle whatever life throws at them and you.
