

Alert the group text—everyone is invited to try out your new fire pit! This 4-piece Montauk patio set by Mōd includes two scoop chairs, a 15-inch square side table, and a column fire pit. Perfect for the small outdoor space that double as your own personal slice of the great outdoors, this chat set saves on space but really brings the heat, 40,000 BTUs to be exact. The scoop chairs are made with a transitional two-toned weave and topped with matching cushions and lumbar pillow for additional comfort and a pop of contrast. Bring the best part of camping—hanging out in front of a fire with your friends—into your backyard, without losing any of your creature comforts of home. (Shout out to indoor plumbing!)
