

Raise your glass (and your table) with the elevated Harper 5-piece high-dining set by Mōd. This modern and minimal collection includes a bar-height glass-top table and four tall sling swivel chairs. These pieces tower over the competition with their clean design and unique elevated height. The tempered-glass tabletop is sleek but sturdy, able to hold 100-lb weight capacity, so it'll be able to support even your most impressive charcuterie board with ease. Hang out with friends while enjoying the pub style seating, but don't fret about dangling feet, thanks to the non-skid footrests on each chair. Made of durable sling fabric over rustproof aluminum frames, each chair rotates a full 360-degree so you don't miss a minute of your outdoor recreation time, from turning to catch a pink and orange sunset or watching the fifth "hey, look what I can do" moment from the kiddos today alone. The all-weather sling fabric is both UV and water-resistant, proven to stand up to the elements so you'll be able to enjoy the Harper collection for seasons to come.
