

QSR Outdoor Digital Menu Boards

Designed for your digital signage application

*Pedestal only or with displays included

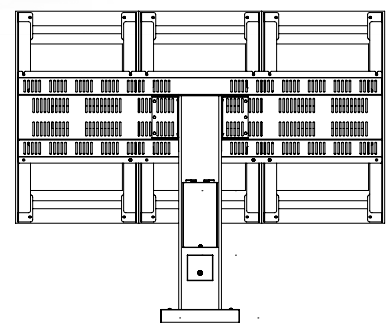

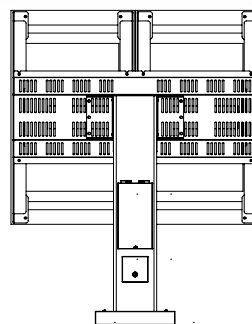

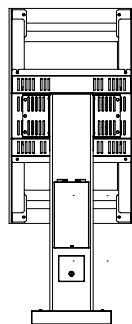

QSR Menu Boards

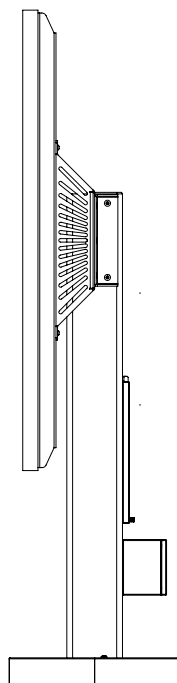

Mustang's QSR Series is designed for the QSR industry and support up to (3) 55" or 49" outdoor displays. This digital drive thru menu board is rated for temperatures of -20f to 122f and is wind load rated up to 140 mph. These systems are unique in that there are no custom designed display cabinets. The Samsung OHF and LG XE4F displays are already IP56 rated and do not require additional protection from the environment.

These QSR systems can be purchased with or without the outdoor displays included.

Constructed using 7 GA. high impact steel braces and 1/4" thick walled tubing which will insure longevity and years of use. This DMB solution is first primed with a zinc rich primer and can be painted virtually any color you want. For high traffic areas there is an optional front cover bumper housing available. (additional cost may apply)

This solution comes equipped with a 4-outlet quad box and a Zero Surge model OEM6-20W-120 power filter. With this fully designed system surge issues are a thing of the past.

Model Number	Product Features
