

NEC M Series

Laser projectors ideal for the classroom

Enjoy low total cost of ownership with lampfree and filter-free DLP laser performance.

M Series laser projectors provide the essential features you need to simply and reliably connect with your audience.

Essential Features for Educational Facilities

- Featuring WXGA and 1080p native resolutions and brightness up to 4300 lumens for easy-to-see images anywhere in the classroom
- Direct power on and quick power off help maximize presentation time
- Built-in 10-watt speaker provides volume needed for typical classrooms
- · Plug-and-Play intuitive setup and operation
- Sufficient connections for multiple sources with dual HDMI inputs, computer and video
- Vertical lens shift and keystone correction ensures a square image even when the projector is set up at a imperfect angle to the screen

Low Maintenance Environmental Design

- Exceptional laser life with ECO Mode™ technology increases operation up to 30,000 hours, while lowering power consumption
- Power management enables projector to automatically turn off when an incoming signal is not detected from any of the inputs
- Auto Power On when a signal is detected from a computer
- Quick start (3 to 4 seconds) lets you begin presenting in seconds
- Low power consumption (0.5W in stand-by mode) minimizes energy costs

Flexible Installation

Advanced Installation Features

Lens Shift

Lens shift provides greater flexibility when determining install location

Tilt-free

The projector can be rotated freely (360°) to orient the image depending on the installation requirements

Portrait mode

Allows the projector to be rotated (and screen if necessary) to a vertical alignment so that portrait content can be viewed without black bars on the side when landscape mode is used.

riumulty		20 to 63 % nutrituity (Noti-Condensing)		

^{*}Not the warranty period. Repair/replacement may be required sooner. - Additional accessories are available, including screens, carts, mount accessories and replacement cables. Visit www.sharpnecdisplays.us for details.

Unique Features

Direct Power On and Quick Power Off improve efficiency and auto power on/off options can lower power consumption

Vertical Lens Shift helps installers square the image when obstructions prevent placement in the ideal location

Tilt Free and Portrait Capability allows reliable projection in non-typical applications

Warranty

Registered owners receive a five (5) years or 20,000 hours (whichever comes first) parts and labor warranty including InstaCare next business day exchange.

Ships With

Remote control, batteries, power cord, RGB signal cable, user's manual on CD-ROM, quick start guide, and product registration card
