The New Standard Charges it All

Powerful Features

We designed Station P from the ground up to deliver convenient nightstand charging for guests' phones, laptops and mobile devices with the latest USB-C and Qi wireless charging standards adopted by Apple and Android devices making it a future proof investment for your rooms. Combined with universal USB charging and two traditional power sockets Station P is the most complete nightstand charging station available.

Decor-Inspired Design Details

Stays in Place

Micro-suction base holds Station P in place on the nightstand or desk without adhesive or screws— simply press it down to set in place.

When users are plugging in devices, Station P won't move around either. It stays put for hassle free one handed plugging and unplugging.

Fabric Bed

Fabric covered charging pad is soft surface for phones and complements room decor.

Woven Cord

Attractive fabric woven power cord exits nicely from the back and lays neatly in place.

Qi Certified Fast Wireless charging 10W
