Motorized Height Adjustable Stand/Wall Mount

Peerless-AV’s SmartMount® Motorized Height Adjustable Stand/Wall Mount was designed to safely mount, raise and lower an interactive display. UL recognized actuators allow the user to raise or lower a display, up to 25.6” (650mm), with the touch of a button. The highly stable design can rest on the floor, or be bolted directly to either the floor or wall. The rear wall plate provides access to mount a Peerless-AV® surge protector or a mini PC, and the bottom shelf provides an area to store a digital pen or eraser. This unique mounting surface allows various users the ability to comfortably interact with a display, making it an ideal solution for education settings.

- Display height can be adjusted up to 25.6” (650mm) with the touch of a button
- Display adaptor fits from 200 x 200 to 800 x 600mm mounting patterns
- Pre-assembled base provides rigidity, stability and quick assembly
- Safety limit switch automatically reverses direction and stops when a collision is detected in an upward, downward or lateral force
- Textured black powder coat finish helps hide fingerprint and dust

FOR 42” TO 86” INTERACTIVE DISPLAYS

- Mounting Pattern
  - Up to 800 x 600mm
  - (31.49” x 23.62”)
- Max Load
  - 280lb
  - (127kg)

RoHS
Complies with the ADA Standards for Accessible Design, Section 308.
The SmartMount® Motorized Height Adjustable Stand/Wall Mount shall be a Peerless-AV model SS598ML3 and shall be located where indicated on the plans.

Assembly and installation shall be done according to instructions provided by the manufacturer.
