Recently redesigned with upgrades that benefit both the installer and end-user, SmartMount® wall mounts offer the most versatile installation features and mounting options. As a recognizable brand that customers know and love, we kept what was great and added various improvements, resulting in a seamless installation.

Key Features and Benefits

- **Open Wall Plate**: Allows for total wall access and increases electrical and cable management options.
- **Low-Profile Design**: Positions display close to the wall for a sleek mounting installation.
- **Vertical Adjustment**: Post-Installation Leveling across family of SmartMount® Flat, Tilt & Articulating Wall Mounts.
This series of mounts has passed the approval process for Underwriters Laboratories (UL), promoting safe living and working environments by the application of safety science and hazard-based safety engineering. SmartMount® mounts have been submitted to rigorous safety testing, including tests for strength and "pull out" to a minimum of four times the stated load capacity.

Peerless-AV®'s mounts are also RoHS compliant, which stands for the Restriction of Hazardous Substances. Through the restriction of six hazardous materials in electrical and electronic products, Peerless-AV® provides a safe environment for the consumer.
SmartMount® Flat Wall Mounts boast low-profile designs for a professional appearance. Medium to larger models now have horizontal and vertical adjustment features, allowing you to achieve perfect positioning of the display with post-installation leveling and side-to-side adjustability.

- Display adaptor simply slides into the wall plate for quick and easy installation
- Low-profile design positions display close to the wall
- Offers up to 0.25” (6mm) of vertical adjustment on each universal display adaptor bracket for post-installation leveling and height adjustment fine-tuning

- **1. HOOK-AND-HANG™ INSTALLATION**
  - Display is easily installed by a single person
- **2. LOW-PROFILE DESIGN**
  - Creates an aesthetically appealing look
- **3. HORIZONTAL & VERTICAL ADJUSTMENT**
  - Post-installation leveling and side-to-side adjustability features allow fine tuning of the mounted display for the perfect positioning

- **• Offers horizontal adjustment for centering display on wall**
- **• Lateral display adjustment and 1" of post-installation vertical adjustment**
- **• Adaptor rail latching feature securely locks the display in place with an audible click**
- **• Designed for mounting a display in portrait orientation**
SmartMount® Tilt Wall Mounts offer tilt adjustment without the use of tools. Various tilt mechanisms, including One-Touch™ and Increlok™, allow just the right range of adjustment to ensure a proper viewing angle. The Tilt Wall Mounts also offer both horizontal and vertical adjustment.

**Tilt Wall Mounts**

- Display adaptor simply slides into the wall plate for quick and easy installation
- Easy-Grip™ ratcheting handle locks tilt angle into place
- Offer up to 0.25" (6mm) of vertical adjustment on each universal display adaptor bracket for post-installation leveling and height adjustment fine-tuning

# Wall Mount Display Brackets

**1. HOOK-AND-HANG™ INSTALLATION**
Display is easily installed by a single person.

**2. INCRELOK™ TILT TECHNOLOGY**
Lock the tilt angle for the perfect view and prevent tampering or undesired adjustment.

**3. HORIZONTAL & VERTICAL ADJUSTMENT**
Post-installation leveling and side-to-side adjustability features allow fine tuning of the mounted display for the perfect positioning.

---

**1. PULL-OUT SERVICE ACCESS**
Provides easy access to the back of the display for maintenance

**2. I-SHAPED ADAPTOR PLATE**
Helps avoid blocking connections on back of display

**3. AUTO CENTERING**
Extended or retracted, the display remains centered on the mount

---

**SP840**
- Adjustable latching mechanism controls the tension required to close mount against wall
- Easy pull-out pivot provides quick maintenance access

**SP850-P**
- Ideal in applications where display needs to be recessed into wall
Fully-equipped with exceptional functionality and a stylish appearance, the SmartMount® Articulating Wall Mounts have been perfectly redesigned. Full-motion capabilities allow you to pivot, tilt, extend or retract the display for the ideal viewing angle.
