Flat Panel Video Conferencing Cart

FOR 32” TO 75” DISPLAY

The SR575E SmartMount® Video Conferencing Cart offers an array of features perfect for any setting where telecommunication is required. The mobility of the cart eliminates the need for multiple video conference systems, lowering your overall system cost. The structure is optimized to hold one 32”-75” display, providing clear visibility for all participants. The camera can be located directly above the display, for near perfect eye contact during your meetings. A lockable storage area houses all components inside the enclosure and the upper door doubles as a laptop with a display sized workstation when needed.

### Additional Features

- **Display can be located anywhere along the column for perfect viewing height (up to 60” at center)**
- **Integrated cable management protects, contains and conceals cables for a clean, professional installation**
- **Maneuvers easily on 4” (102mm) swivel casters, two locking**
- **Corner bumpers protect walls and doorways from damage**
- **Fully welded base structure provides rigidity, stability and quick assembly**
- **Textured black powder coat finish helps to hide finger prints and dust while stainless steel accents provide an attractive appearance**
- **Open frame adaptor design to help prevent display component input interference**
- **Upright structure houses components in either 2RU 19” rack mount configuration or a shelf inside the lockable compartment**
- **6 Outlet surge protector with 15ft cord housed inside the enclosure**
- **Upper compartment doubles as a work surface for laptops or keyboard/mouse and test monitor**
- **Universal mount fits displays with mounting patterns from 200 x 200mm up to 600 x 400mm**
