- Install and manage apps remotely with AppControl
- Operate, monitor and maintain via CMND & Control
- Scheduler for content playback at selected times
- Can tune TV channels, including ATSC, QAM and IPTV

Vibrant and efficient
- Chromecast built-in for wireless content sharing
- HDMI hotplug detection with auto on/off function
- Google Play Store access for apps and media
- Supports Pro:Idiom™ encrypted content
- Superb audio quality without external speakers
- UHD resolution for attention grabbing content
- Android updates provide the latest functionality
Highlights

**Powered by Android**
Android-powered Philips Professional TVs are fast, versatile and easy to navigate. The TVs are optimised for native Android apps and you can install web apps directly to the display too. Automatic updates ensure apps stay up to date.

**Chromecast built-in**
Make meetings run smoother and faster with seamless wireless connectivity to the big screen from any Apple, Windows or Android™ device. Chromecast built-in enables instant casting of presentations and media from mobiles, laptops, and tablets in up to 4K resolution. It’s cost-effective, requires no extra hardware, and is secure for corporate use.

**Crestron Connected certified**
Connect this Philips Professional Display to your Crestron network for full remote control via your laptop, desktop or mobile device. Switch the display on and off, schedule content, manage settings, and easily connect external devices. Crestron Connected® provides a fast, reliable and secure enterprise level solution for wireless and wired content sharing from Apple, Windows, Android and Linux devices.

**Google Play Store access**
Full access to the entire Google Play Store makes it easy to add apps, games, music, movies, and more to your Philips Professional Display. New business tools and extra entertainment options are added to the catalogue daily, ensuring that you always have access to the latest global trends.

**HDMI hotplug detection**
When wireless connectivity is not an option, HDMI hotplug detection recognises direct cabled connections from presentation sources and automatically handles source changes and on/off functioning.

**AppControl**
Take full, centralised control of the apps installed on your Philips Professional TVs. AppControl lets you install, delete, and manage apps on selected TVs or your entire network so that you can offer personalized experiences to your guests and customers—no matter how many TVs you are managing.

**CMND & Control**
Run your display network over a local (LAN or RF) connection. CMND & Control allows you to perform vital functions like updating software and settings, as well as monitoring display status. Whether you’re in charge of one TV or more, CMND & Control makes managing your fleet easy.

**Scheduler for content playback**
Built-in scheduler makes it easy to launch content and apps based on time of day for a more engaging environment with better results.
Specifications

**Picture/Display**
- Display: 4K Ultra HD LED
- Diagonal screen size (inch): 70 inch
- Panel resolution: 3840x2160p
- Brightness: 350 nit
- Contrast ratio (typical): 5000:1
