

HAF-CIN

Samsung Refrigeration Accessory

SAMSUNG

Replacement Water Filter

Description

The Samsung HAF-CIN Replacement Water Filter replaces the original water filter in Samsung's side-by-side refrigerators. It provides clean, fresh-tasting water and ice from dispensers, while its slim design allows for easy installation and removal without the use of tools. NSF certified, the filter reduces cysts, chlorine tastes and odor, particulates, heavy metals and chemicals, and mercury from your water, while still retaining important additives such as fluoride.

Features

- Replacement water filter for Samsung's side-by-side refrigerators
- Provides clean, fresh-tasting water and ice from dispensers
- Meets NSF 42 standards for chlorine odor and taste reductions
- Meets NSF 53 standards for cysts, turbidity, lead, asbestos, benzene, carbofuran, and mercury
- 300 gallon capacity
- No tools required for installation

Warranty:

No warranty per manufacturer
