A Smart All-in-One Touchscreen to Enliven Your Office or Classroom
Looking for a smart, interactive display for your office or classroom? Meet the all-in-one Sharp PN-C861H, PN-C751H and PN-CE701H AQUOS BOARD interactive display systems that make all your visual communications more lively and productive. Available in three sizes—86” Class (85 9/16” diagonal), 75” Class (74 1/2” diagonal) and 70” Class (69 1/2” diagonal), respectively—this series opens up an affordable path to pristine 4K Ultra HD resolution. A pre-installed launcher makes it quick and easy to start up and use the interactive whiteboard. Your lecture, presentation, or lesson can now be more creative and involving.

Stress-Free Operation

IWB Launcher

Thanks to the built-in controller, it’s easy to operate this all-in-one interactive whiteboard. You don’t even need to hook up a dedicated PC. As long as the main unit’s power is on, you can run the launcher. Then, with a single tap you can access the function you need.

Built-in Whiteboard

Switch to the whiteboard function to use the LCD monitor as a temporary writing board—no PC required. Even for first-time users, this simple write-and-erase function is a breeze to operate.

Display, Write, and Share Information

Even without a PC, you can use overlay mode to write onscreen annotations directly onto photos, videos and documents. This function is especially handy when you need to share meeting notes with participants or others.

One-Touch Buttons

The PN-C861H, PN-C751H and PN-CE701H interactive displays are designed with your convenience in mind. Buttons for frequently used functions such as power on/off, input switching, volume up/down and freeze are neatly arranged on the front of the frame.

Freeze Button

A press of this button lets you temporarily freeze or unfreeze the screen. While the display continues to show a paused onscreen image, you can stop and explain your point.

Input Button

At the touch of a button, a list of inputs appears on-screen. You can then instantly select the input terminal you want.

Front Terminals

These make it easy to access teaching materials or other content stored on sources connected via HDMI™ and USB.

Flexible and Expandable

OPS-Compliant Slot

A slot on the PN-C861H, PN-C751H and PN-CE701H interactive displays bring compatibility with OPS (Open Pluggable Specification) controller modules. This means you can set up the monitor to run without having to connect it to a client PC. Without the extra bulk of a client PC, you’ve got more freedom when it comes to installation set-ups.

Simultaneous Writing

The LCD panel recognizes up to 20* touch points. Up to four people at a time—even young students—can use a finger or touch pen to add their input when inspiration strikes. Meetings, lessons and brainstorming sessions will come alive.

* PN-CE701H model has 10 touch points.

Built-in Controller

The PN-C861H, PN-C751H and PN-CE701H interactive displays feature an integrated controller that comes with 8 GB of internal memory. The PN-CE701H model also supports external storage via SD card. It’s easy to play back your photos and videos on one of these monitors. There’s no need for a PC to run the main application.

Front-mounted Speakers

Two speakers are mounted low on the front of the LCD monitor. These speakers project sound more directly than rear-mounted speakers, giving you clearer sound for your lessons and meetings.
Get Your Message Across

Interactive Touchscreen
The PN-C861H, PN-C751H and PN-CE701H interactive displays deliver innovation to the world of business and education. They enhance your visual communications by transforming presentations and lessons. In the classroom, visual and web-based content will help to keep students more focused and engaged.

Wireless Connectivity
These LCD monitors have built-in wireless functionality. Simply touch the screen and your smartphone, tablet, or computers* will immediately download an app that lets it send images wirelessly to the monitor. No need for tangled wires or conversion adapters.

* Compatible with Windows® and Android™ operating systems.

User-Friendly SHARP Pen Software
The easy-to-launch SHARP Pen Software interface has a menu with smartly arranged icons. These give you easy access to pen settings and other useful functions. Further handy functions* include access to cloud storage, an e-mail address book, sticky notes and bookmarks.

* Availability varies by country/region. For details, please consult your local authorized Sharp dealer or representative.

Note: Requires a separate Windows PC.

Built-in Media Player
These LCD monitors can play 4K Ultra HD photo slideshows and videos without the need for a PC or set-top box.

16-Hour Daily Operation
The PN-C861H, PN-C751H and PN-CE701H interactive displays can be used continuously for up to 16 hours per day, providing reliable performance in the schoolroom or office.

**Specifications**

- **Dimensions (PN-C651H)**
  - Max. Resolution: 86" Class (93 1/16" diagonal) LCD
  - Max. Display Colors (approx.): 1.07 billion colors
  - Pixel Pitch (H x V): 0.4355 x 0.4395 mm
  - Max. Brightness (average)**: 400 cd/m²
  - Contrast Ratio: 1:200
  - Viewing Angle (V/H)**: 178°/178° (CR ≥ 10)
  - Active Screen Area (W x H) (approx.): 74" x 41" (1876 x 1051 mm)
  - Response Time: 8 ms (gray to gray, avg.)
  - Backlight: LED, direct lit

- **Touchscreen**
  - Touch Technology: Infrared blocking detection method
  - PC Connection Port: USB (2.0 compliant) (Type B) + 2 (Front + Rear, 1)
  - Power Supply for Touch Panel: Supplied from main unit

- **Power Supply**
  - Multi Touch: 20 points
  - Protection Glass: Thickness: Approx. 4.0 mm, Sheet resistance: 130 Ω

- **Touch Pen Function Button**
  - N/A (passive pen)

- **Computer Input**
  - Video: Analog RGB (0.7 Vp-p) [75Ω], HDMI
  - Synchronization: Horizontal/vertical separation (TTL: positive/negative)
  - Plug & Play: VESA DDC2B

- **Shure Pen software (CD-ROM), touch pen × 2, wireless adapter**

- **Main Accessories**
  - Remote control unit battery (AAA size) × 2, set-up manual, blank sticker, cable clamp × 3, USB cable, pen tray, SHARP Pen software (CD-ROM), touch pen × 2, wireless adapter

- **Model Name**
  - SHARP Pen software (CD-ROM), touch pen × 2, wireless adapter

*1 Brightness depends on input mode and other picture settings. Brightness level will decrease slightly over the lifetime of the product. Due to the physical limitations of the equipment, it is not possible to maintain a precisely constant level of brightness. *2 Excluding the touch sensor part around the LCD panel. *3 Approximate distance at which the glass panel can withstand the impact of a 500-gram iron ball dropped on its center. *4 Use a commercially available connection cable for PC and other video connections. *5 Composite video and component cannot be used simultaneously. *6 The AC power cord is an inlet type. The cable is bundled (3 pins). *7 When an option is installed on the expansion slot. When not installed: PN-C861H: 420 W, PN-C751H: 360 W, PN-CE701H: 295 W *8 Temperature conditions may change when using the monitor together with the optional equipment. In such cases, please check the temperature conditions specified by the optional equipment. *9 Check the requirements of the computer and other devices to be connected, and make sure that all requirements are satisfied.
