The PN-ZB03H Mini OPS HDBaseT module is purpose built to Sharp's exacting requirements, and allows powerful transmission of HDMI video and other signals over a long distance directly into the display.

The Mini OPS design allows for a true "Plug and Go" experience with fast user setup and no annoying power cables, power supplies or other additional external devices.

The PN-ZB03H is the perfect choice for mounting a HDBaseT 2.0 Receiver directly within the Sharp display, and can support the latest 4K UHD resolution video inputs at 30Hz refresh rate as well as the HDCP copy protection standard.

The Sharp PN-ZB03H HDBaseT2.0 Receiver module is the perfect solution for any Sharp display, which is physically placed a long distance away from the HDMI video signal source.
