## SHARP

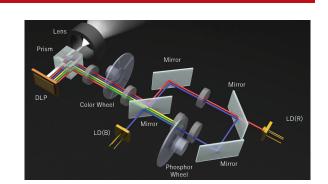

# Powerful installation projectors with laser-phosphor light source supports new, demanding projection applications.

## Laser Light Module

- 20,000-plus hours of virtually maintenance-free operation with our five year/20,000 hour limited warranty
- High-brightness, lower power consumption enhances applications such as retail, digital signage and theme parks
- Ability to control brightness creating a stable image over longer time periods
- · Images appear immediately after power on due to instantaneous start up of the laser

#### Flexible

- Enjoy greater installation flexibility with a complete line of optional bayonet style lenses (6) for quick and easy exchange. Lens throw distances range from 1.3 to 141.3ft
- Tilt-free installation capabilities make these projector ideal for almost any install environment, including portrait orientation
- +/-60% vertical lens shift and +/-20% horizontal lens shift capabilities make alignment easy

#### 4K UHD Resolution

- Utilizing the latest DMD (Digital Micromirror Device) chip from Texas
   Instruments™ with pixel shift capabilities resulting in an unsurpassed viewable resolution of 9.2 million pixels
- Screen resolution matches standard 4K UHD LCD displays providing consistency when developing content for your presentations

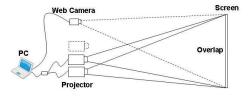

## Integrated and Powerful

- Project uncompressed FHD video with integrated HDBaseT
- High performance video processing/scaling creates life-like images
- Integrated software applications such as Crestron RoomView®, AMX Beacon and PJ Link allow for complete interactivity and control

## Stacking correction

The industry's first built-in stacking correction capabilities (up to four projectors) allows the projectors to boost an image's brightness up to 54,000 lumens, which is ideal for larger-sized screens and environments with heavy ambient light. This feature also prevents the complete loss of an image, which can happen when using only one projector.

## Edge blending

This function seamlessly blends multiple projected images to display a single high-resolution image.

## Built-In HDBaseT Support

Simplify your installations with HDBaseT. Optimized for video applications and supporting uncompressed full HD digital video, audio, ethernet, power and various control signals. With only a single cable (up to 100m) to run, infrastructure and labor costs are reduced, installations are significantly easier, and there is no cable clutter to manage. With uncompressed HD video support, images have never been more stunning. What's more, control signals are contained in the same cable.

## Sealed Optical Engine

- Longer lasting more consistent image and light output
- · Maintenance becomes a thing of the past providing peace of mind while lowering maintenance costs
- · Eliminates external contaminants from depositing on the optical engine preventing a degradation in image brightness

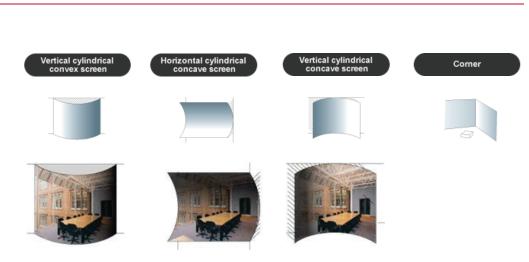

#### Cornerstone

Enhanced keystone correction allows for horizontal, vertical and diagonal image correction for aligned images even when the projector is set up at an angle to the screen.

## Geometric Correction

Projecting an image isn't confined to a standard flat screen or wall with the Sharp X Series. Geometric correction allows these models to project an image on spheres, cylinders, corner angles and many more non-standard surfaces.

#### **Roll Free**

When installation requirements dictate the projector needs to be placed at different angles the X Series with Roll Free (360°) capabilities assures it is the correct projector of choice when projecting onto the floor, ceiling or at an angle.

#### **UNIQUE FEATURES**

**Advanced AccuBlend™** ensures detailed images when non-native resolution sources are connected to the projector

**AutoSense™** automatically syncs with any computer signal and features one-touch image optimization

**Remote diagnostics** enable the user to monitor and make adjustments to the projector remotely

**Built-in HTTP page** for control and monitoring over a LAN network. Email notification of error messages or lamp end-of-life can be sent to remote locations.

### **WARRANTY**

Registered owners receive a five (5) years or 20,000 hours (whichever comes first) limited warranty including InstaCare next business day exchange.

#### IN THE BOX

Remote control, batteries, power cord, user's manual on CD-ROM, quick start guide, product registration card.

#### **ACCESSORIES**

IPJ2000CM Ceiling mount

RMT-PJ40 Replacement remote control

RGBCBL-PJPX RGB cable

Optional Lenses XP-57UL, XP-58ZL, XP-59ZL,

XP-60ZL, XP-61ZL, XP-62ZL
