STARBURST TECHNOLOGIES: Empowering Communication Networks since 1986

Starburst Technologies (Starburst) TV-DISPLAY Wall Mounts offer an unbeatable combination of quality and cost effective price point. Each mount has been designed to work not only in the home, but also in the more demanding Commercial-Hospitality environment. All Starburst mounts are built to a higher Commercial-Hospitality grade standard.

The SB-60100ART-XL is a heavy duty, dual arm, articulated wall mount, designed to provide as many viewing options as possible while making the maximum use of a minimum of space. It can position the display as close as 2.8” to the wall, which is ideal for super slim profile applications.
