MODEL NUMBER: P032-002-2C13

C20-to-C13 splitter allows 2 devices with C14 inlets to share one AC power input cord and one C19 outlet on a PDU or UPS system.

Features

Heavy-Duty Splitter Cable for Network Devices That Require a Heavy-Gauge Connection This C20-to-C13 splitter features 14 AWG wire suitable for high power connections, making it a reliable solution for large server applications that require a higher-rated, heavier-gauge cable. It allows two devices with C14 power inlets to share one AC input cord and one C19 outlet. By connecting two devices to one outlet, the splitter frees up space in a PDU or surge protector and helps reduce cable clutter. The 2-ft. (0.61 m) length helps reduce cable clutter and minimize the risk of tripping.

Dual IEC Cable Powers a Wide Variety of Essential Electronics With this splitter, a single C19 outlet can power two devices, such as computers, monitors, printers, instrument amplifiers and other equipment compatible with a C19 connector. Ideal for areas where AC outlets are limited, such as rack cabinets, this dual IEC cable is compatible with Tripp Lite power and extension cords.
