# 4K modular multi-window video processor

### **OVERVIEW**

C3-540 CORIOmaster is a powerful, efficient approach to building large video display systems. Multiple video windows can be positioned on LED, display based videowalls or projector edge blends, displaying any of the sources connected to CORIOmaster. Windows can be visually "transitioned" into position, resized or rotated to any proportion allowing designers to achieve striking visual effects. Each system can support up to 4 separate video canvasses.

**CORIO**grapher v2, the control software for the CORIO**master** series of processors, is a simple, easy to use design interface that enables window and source positioning and transition effects. This dynamic feature is easily managed through presets in **CORIO**grapher or by simple commands executed by third party control systems. 50 presets can be saved permanently in the system.

# **NEW FEATURES**

- Secure command interface
- ◆ REST API
- Real-time status feedback through events
- H.265 4K/30 Streaming Media & 4K Playback Input Module
- IP decoding Low latency mode (<250 ms) using the Magenta-100 Encoder</li>
- Audio support
- Audio module

#### **KEY FEATURES**

- Patented CORIO®3 videowall processing technology
- Manage up to 4 videowalls
- Uses CORIOgrapher v2; simple powerful software interface
- Live dashboard to switch presets and window sources
- 4K input & output modules
- Create custom output resolutions
- Automatically discover devices on the network
- Outputs rotated in 1º increments
- Combination of different size and resolution of displays can be used
- Customizable bezel compensation
- Multi-Edge blending of projectors
- Versatile DVI Inputs: (HDMI/DVI/CV/YC/RGB/YPbPr)
- DVI-I Outputs: (HDMI/DVI/RGB/YPbPr)

- ◆ 4K HDBaseT inputs
- HDBaseT outputs
- SDI inputs and outputs: SD/HD-SDI/3G-SDI to 1080p60
- High resolution analog inputs/outputs
- DVI/HDMI: PC to 1920x1200, HDTV to 1080p/60 w/ EDID
- HDMI input & output with HDCP handling
- Up-down-cross conversion
- Custom resolution editor with resolutions automatically detected on inputs & selectable on the outputs
- Simple serial control protocol
- Command Line Interface Third party control
- AMX & Crestron modules available
- 4RU frame size
- Modularity provides flexible I/O

### **OPTIONS**

- Redundant hot-swappable power supplies
- Universal DVI adapters

Onsite system commissioning

# **Part Numbers**

C3-540	4RU CORIOmaster with 16 slots available for video I/O modules. Interfaces for R2- 232 & IP. Single power supply
CM-HDMI-4K-2IN	Dual 4K HDMI input module
CM-AVIP-IN-1USB-1ETH	Dual 4K Streaming & Media input module
CM-HDBT-2IN-1ETH	Dual 4K HDBaseT input module
CM-DVIU-2IN	Dual DVI-U input module
CM-3GSDI-2IN	3G-SDI input module
CM-HDSDI-4IN	HD-SDI input module
CM-HDMI-4K-SC-1OUT	4K HDMI scaled output module
CM-HDMI-2K-SC-4OUT	Quad HDMI scaled output module
CM-HDBT-SC-2OUT	Dual HDBaseT output module
CM-DVI-I-SC-2OUT	Dual DVI Scaled output module
CM-3GSDI-SC-2OUT	Dual 3G-SDI output module
CM-AUD-2IN-4OUT	S/PDIF and Analog Audio module (C3-540/C3-510 only)
CM-HDMI-SC-4OUT	Quad HDMI scaled output module (C3-540 only)

CM-C3-540-CPU- HTTPS	Secure communications CPU module
ZDH2050	Composite video adaptor DVI-I
ZDB2048	YC (S-Video) adapter DVI-I male to 2-BNC female
ZDS2046	YC (S-Video) adapter DVI-I male to 4-Pin mini-din female
ZDH2040	Analog PC adapter DVI-I male to HD-15 female
ZDB2038	1.5' (0.5m) analog RGBHV adapter Cable DVI-I male to 5-BNC female
ZDB2044	1.5' (0.5m) YPbPr/YUV adapter cable DVI-I male to 3-BNC female
ZDB2042	YPbPr/YUV adapter DVI-I male to 3-RCA female
CMD1941	HDMI adapter DVI-I male to HDMI female
Magenta Encoder-100	Single channel IP encoder
CM-4RPS	Optional dual redundant, hot swappable power supply (C3- 540 only)
FE-1	Onsite system commissioning

# **Modular Flexibility**

CORIOmaster can accommodate numerous I/O configurations in the 16 universal video slots available; when inserted, the modules are automatically recognized & configured. This flexibility allows end user configurations to be based on their own needs.

# **NEW FEATURES**

### **Secure Command Interface**

Secure Communication mode – The latest CORIOmaster release provides a mode to encrypt all networked based communication through AES128 encryption to provide private communication in mission critical applications where network security and authentication is essential.

REST API / WebSocket - Based on industry standard schema, CORIOmaster supports REST API providing multi-user communication to device. Integrators can now subscribe to a growing range of events to provide real time feedback from CORIOmaster (such as: HDMI handshake, lost source, USB stick removed, etc). These events can be used by a control system to automatically monitor the performance and events of the videowall and respond accordingly.

#### Control

Multiple control points - Using our REST API up to four users can now control a single CORIOmaster chassis simultaneously making programming, control and fault finding a dream. In addition to control via **CORIO**grapher, simultaneous control is possible using the CORIOmaster app (IOS and Android) and by a third-party control system using our real-time API interface.

**CORIO**grapher login profiles – System administrators can set different levels of control for up to four user profiles for Power User and User access control.

Emergency cut/mute features – Cut individual canvasses to black and mute audio or cut all outputs to black and mute.

### Audio management

Audio can be passed through the system from source to display. Alternatively, audio can be de-embedded, cross converted and re-embedded on another source for each of your four canvasses. Input and output volume control together with audio mute gives full control.

#### **New Modules**

Quad HDMI output module -The Quad HDMI scaled output module allows you to produce up to 56 1080p outputs with your CORIO**master** C3-540. Now, you can create enormous video walls, projector edge-blends, and LED installations.

S/PDIF and analog audio module - This module slots into a data slot (Slot 18) on the rear of the CORIO**master** and accepts discrete analog and digital inputs and embeds them into all audio supporting video outputs (HDMI/SDI/HDBaseT/DVI-I) or routed to the discrete analog or digital outputs in this module.

## Streaming Media & 4K Playback Module

Higher bandwidth support – A doubling of the module bandwidth to 100mbs means you can de-encode two network streams up to 4k 30 @ 50mbs in to just 1 slot. Increased bandwidth is also available for media playback up to 80mbs on a single channel for increased quality content and interoperability.

H.265 Support – H.265 streams offer higher quality with file sizes of around half that of a H.264 stream.

Low Latency Mode - Low latency mode delivers less than 300ms (glass to glass) video latency for most demanding applications in conjunction with the Magenta Encoder-100.

### **Secure Communication**

CORIOmaster can now support secure communications\*\* for protocols to provide an encrypted connection for controlling CORIOmaster. By default, the CORIOmaster communication is unsecure and needs to be enabled through **CORIO**grapher. Whilst unsecured API control can be accessed via REST API (port 80) or CLI (port 10001). When secure communication is enabled port 10001 is disabled. Events can be used to monitor unsanctioned activity (connections to device for example)

TLS/SSL	TLS 1.2 protocol
Cipher suite	MBEDTLS_TLS_ECDHE_ECDSA_WITH_AES_128_CBC_SHA & MBEDTLS_TLS_ECDHE_ECDSA_WITH_AES_128_GCM_SHA256 SECP256R1 curve is used for the ECDHE
Key exchange	Elliptic curve key exchange with AES128 encryption and SHA256 for message authentication
HTTPS certificate	Default certificate is dynamically generated. It is valid for 2 years and 1 day and is re-created on every boot
Custom certificate	User can upload, view details of active and user certificate in CORIOgrapher  It must be in a PKCS12 format and contain a certificate and a private key (can also have a CA certificate)

# **REST Interface**

Will support secure or unsecure communication between client and CORIOmaster, facilitating multiple connections to CORIOmaster.
