Secure, Consistent and Inclusive Meeting Experiences

Certified Solutions for
Microsoft Teams Rooms

Certified for
Microsoft Teams

Stop Wasting Time on Inefficient Meetings

Inefficient meetings cost businesses valuable time and resources. Studies show employees spend an average of 1 hour and 9 minutes per meeting on logistics alone, including scheduling and room booking.*

Additionally, 40% of employees waste up to 30 minutes searching for available rooms. These inefficiencies contribute to meeting fatigue and overload, with employees attending an average of 8 meetings per week.**

* HubSpot study "Meeting Management: How much time do you waste?" (2016)
** Owl Labs Survey "Time Spent In Meetings Statistics: Market Report & Data" (2023)

Don't Let Anyone's Ideas go Unnoticed

Here's a fact that might shock you: A Harvard Business Review study found that only 35% of employees surveyed felt consistently comfortable contributing in meetings. In meetings of 10 people, only three to four people feel empowered to contribute—leaving six or seven unique perspectives unheard. That should be a concern for any team leader.

One way to counter this problem is with inclusive meetings. These aren't just about meeting diversity quotas, but about fostering an environment where everyone feels empowered to speak up, share, collaborate, and make a meaningful impact. By embracing inclusivity, your meetings can become more productive, creative and ultimately lead to better decision-making, problem-solving and employee satisfaction.

Deliver Better Meeting Experiences

In addition to wasting time and hindering the creation of an inclusive environment, the challenges mentioned previously also lead to untapped potential and ultimately, less productive teams.

With options including a compute system, touch console and conference camera, ViewSonic's Microsoft Teams Rooms certified solutions can help eliminate wasted time and streamline meetings. Intuitive controls let users start meetings instantly, while integration with productivity tools such as Microsoft 365 helps to simplify workflow. Plus, clear visuals and sound help to foster inclusivity and equity by enabling everyone in a meeting to be seen, heard and understood.

Instant Collaboration in Any Meeting Space

Once you commit to making your meetings more diverse and inclusive, you may need to invest in some new technology to optimize your time together.

Designed to deliver instant and intuitive collaboration without a complicated setup process, ViewSonic® Microsoft Teams Rooms certified solutions help to enhance communication, foster collaboration, and promote inclusivity among diverse teams, regardless of their locations.

Our conference room solutions are all integrated with Microsoft Teams to provide optimized setup, enhanced security, crisp audio and crystal-clear video performance. Our Microsoft Teams Rooms certified portfolio offers a complete, one-stop solution that can easily scale based on your needs and meeting space size.

ViewSonic® TeamJoin Plus Bundle for Microsoft Teams Rooms

Ideal for enterprises looking to completely upgrade and transform their meeting spaces, this bundled solution includes everything needed for a comprehensive Microsoft Teams Rooms experience:

Computing Engine (MPC310-W31-TU)

- Intel® 12th generation Core™ processor
- Delivers additional security features such as Intel® Threat Detection Technology, Control-Flow Enforcement and more
Touch Console (MRC1010-TN)

- 10.1" Full HD touch display
- Easy-to-use Microsoft Teams interface
- Effortlessly initiate, join or manage meetings with a single touch

Conference Camera (UMB202)

- Ultra HD 4K camera sensor for advanced image processing
- Intelligent auto-framing and Direction-o- Arrival (DOA) voice tracking technology
- 6-mic array beamforming soundbar with 11W speaker

ViewSonic® TeamJoin Bundle for Microsoft Teams Rooms

This is a more cost-effective solution for those in need of a basic Microsoft Teams Rooms experience. This bundle includes a Computing Engine (MPC310-W31-TU) and Touch Console (MRC1010-TN), but it DOES NOT include a conference camera.

Depending on your needs, we offer two separate bundled solutions:

INCLUDED ITEMS	TeamJoin TRS10 Bundle	TeamJoin Plus TRS10-UB Bundle
Computing Engine	✔	✔
Touch Console	✔	✔
Conference Camera		✔

What's more, you can combine the above bundled solutions with any ViewSonic® ViewBoard® interactive display, commercial display or projector. With a variety of screen sizes to choose from, you can build your ideal Microsoft Teams Rooms meeting space—no matter the size.

To view a complete list of which ViewSonic displays can be combined with our bundles, scan the QR code.

Secure Collaboration

ViewBoard IFPG1 Interactive Displays

Without an integrated operating system, ViewBoard® IFPG1 interactive displays as a secure communications solution that enhances security standards while reducing cyber vulnerabilities and potential attack vectors.

Available in sizes ranging from 55" – 86", ViewBoard IFPG1 interactive displays are a flexible, future-proof presentation solution designed to help enterprise organizations enjoy streamlined collaboration for years to come. Plus, any of these displays can be easily combined with our Microsoft Teams Rooms bundled solutions.

Easy Content Sharing

CDE30 Series Digital Displays

For organizations in need of the same plug-and-play capabilities of our IFPG1 series, but do not require interactive touch capabilities, our CDE30 series of digital displays are what you need.

With 4K resolution, high brightness and 25% high haze anti-glare glass treatment, these displays deliver bright, clear and sharp images in any indoor environment. Plus, 24/7 operation and a durable design delivers peace of mind for long-term usage in any enterprise environment.

We've got a CDE30 for every meeting room. From 43-inch models ideal for huddle spaces and to 98-inch screens that command any large boardroom, any of our CDE30 displays can be combined with our Microsoft Teams Rooms bundled solutions and provide a perfect fit for your team.

Immersive Presentations on a Colossal 21:9 Screen

ViewBoard 105S Interactive Display

With a huge 105" touchscreen and 21:9 aspect ratio, the ViewSonic® ViewBoard® IFP105S interactive display delivers a nearly infinite canvas optimized for team communication and productivity in larger conference rooms.

Whether you are trying to maximize the power of Microsoft Teams Room Front Row for a more inclusive meeting, or leveraging the extra screen real estate for added collaboration, the IFP105S delivers.

Advanced Touchscreen Performance

ViewBoard IFP62 Interactive Displays

Taking notes, capturing ideas and sharing concepts during team huddles or brainstorming sessions can be difficult without the proper tools. With the ViewBoard IFP62 series of interactive displays, collaboration becomes seamless and intuitive thanks to responsive and accurate PCAP touchscreens that deliver an incredibly smooth writing experience.

Big-Screen Presentations for Training Rooms and Auditoriums

Direct View LED Displays

Seeing is believing with ViewSonic's innovative all-in-one Direct View LED displays. With huge 135" screen sizes, these bright displays make a sizable impression in any corporate lobby, training room or auditorium, boasting seamless and stunning video wall images.
Combine these big-screen displays with our Microsoft Teams Rooms solutions, and enjoy crystal-clear communication between those in the meeting room and remote attendees.

Bright and Versatile for any Meeting Space

Projection Solutions

ViewSonic projection solutions are designed to be flexible for a variety of meeting space environments.

Featuring the latest laser phosphor technology, our LS740HD and LS740W projectors deliver 5,000 ANSI lumens of brightness to ensure crisp images even in rooms with ambient lighting. For a more cost-effective solution, our PA504W projector delivers 4,000 ANSI lumens of brightness.
