

Vintage

Side Sear Burner Built-In LP/NG

Like a fine wine, Vintage Products have grown through generations of experience to become the ultimate outdoor cooking and entertainment line. From our remarkably powerful grills and side burners to our complete line of outdoor kitchen accessories, the Vintage brand speaks of fine craftsmanship and truly intelligent design. With a heat output up to 1,700 degrees, the Vintage side sear burner is the ideal accessory for quickly searing steaks, tuna or any recipe that requires an ultra-high heat source. With our stainless steel U-grates atop a ceramic infrared burner, excess fat is directed away from your food and leaves you with beautiful grill marks. Create extraordinary meals in the peace and comfort of your own backyard with Vintage!
