NC-X500 & NC-X910

An easy-to-connect wireless presentation solution

Key Features

NovoConnect NC-X500 and NC-X910 are both a wireless presentation solution, allowing up to 4 users to share their screens and 64 users to connect simultaneously. Its low-latency mirroring, extended desktop functionality, and file sharing capability facilitate seamless collaboration. In addition, its cloud-based device management offers great flexibilities, such as firmware update & remote assist. The NC-X910 offers wireless collaboration & digital signage integrated, making it an excellent choice for communication and collaboration in corporate environments.

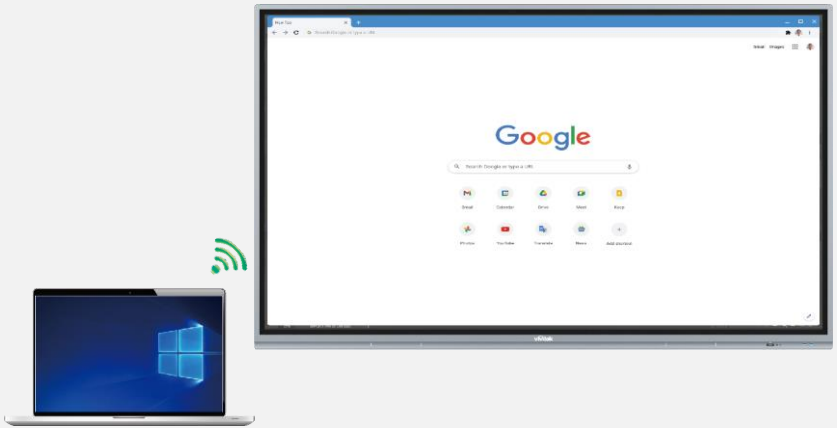
- Wireless presentation
- File & video sharing
- 4 split screens with FHD resolution
- BYOM support
- Centralized device management (Cloud or PC)
- Network-based control for system integration – SysControl
- Digital signage & DS cloud service(NC-X910 only)

Wireless Presentation

- Screen Mirroring: Airplay, Google Cast, & Miracast
- Windows | MacOS | Chromebook | Ubuntu
- Extended desktop
- File & video sharing

NovoConnect software | AirPlay | Google Cast

Screen Mirroring



Primary screen
(User's laptop)

Extended screen
(serve as the secondary screen to User's laptop)

Extended Desktop

4 Split Screens with FHD Resolution

- 4 split screens in 1080p resolution
- Up to 64 participants can be connected simultaneously

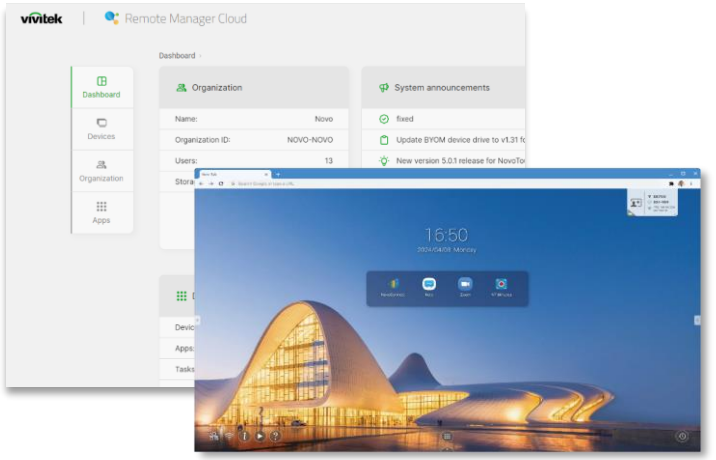
BYOM

- BYOM (Bring Your Own Meeting) enables users to connect wirelessly to in-room AV equipment such as camera, microphone, and speakers
- User's computer + in-room camera → Join online meetings
- Support both Windows & MacOS

Cloud-based Device Management

- Firmware update
- Remote assist – View and click on the device screen in the cloud
- Managing devices by groups

Cloud-based device management



Dashboard, Device snapshot & Remote control

NT Live Receiver

With NT Live Receiver, users will be able to mirror the screen shown on one panel to other display panels over LAN and/or Wi-Fi network

System Integration

The NovoConnect NC series supports SysControl which provide Network-based commands to integrate 3rd party software or conference room control system, allowing to control devices(On/off, Volume) over the network.

Digital Signage
(NC-X910 only)

NovoDS

- Built-in NovoDS software easy to deliver the content
- Organize digital signage content through Novo DS Cloud and NovoDS Studio
- Dynamic content type: YouTube, Instagram, Google drive
- Cloud-based content management: two-factor authentication
