

DON'T JUST COVER CORDS, CONQUER THEM -

with the 2-in-1 Powered Cable Management Box from Legrand

Get the power you need, and the organization you want, in an all-in-one solution that's perfect for home offices, entertainment areas, or anywhere you need to conceal unsightly cables, cords and wires.

Unlike other cable management boxes that require a separate power strip, the Legrand solution includes 8 built-in power outlets for greater convenience, and even features four that rotate to accommodate larger plugs and bulky adapters, keeping cords tidy no matter what devices need power. And, engineered with the electrical safety and reliability that Legrand is known for, the box provides surge protection for connected equipment while locking when closed to safely keeping pets and children out.

- Neatly conceals unsightly cords to keep your space clutter-free and organized.
- Provides built-in power – no buying a separate power strip or struggling to keep a detached one in place.
- Includes 8 outlets: four remain stationary, while four can rotate up to 90° for easier access and use with bulky adapters, large plugs or power supplies.

- Box expands when open, making it easier to add, adjust or remove plugs and cables.
- Box closes with a simple locking mechanism to help safely keep pets and small children out, without hindering your access.
- Features surge protection (2160 Jules rating) to keep your devices and equipment safe.
- Indicates surge protection and electrical grounding with an LED light for safety and assurance.
- Plugs into any standard outlet with a 6" cord for flexible placement. Easily pair with Wiremold CordMate products for a complete cord-covering solution.
