
WAPBRKT OVERHEAD MOUNTING BRACKET

WAPBRKT | [Wiremold](#)

FEATURES & BENEFITS

The Wiremold Wireless Access Point Ceiling Enclosure (WAPENCL) provides a secure enclosure for mounting wireless access points into a grid ceiling system. The enclosure provides a permanent location that will accommodate most leading manufacturers' wireless access points. Designed for easy assembly, the enclosure can be fully assembled into a ceiling tile on a regular work surface before being installed into the overhead ceiling grid system. The cover, which is also removable, has knockouts that can accept a variety of antenna configurations. The enclosure is constructed of lightweight aluminum and painted with a textured white powder coat finish to blend aesthetically with most ceiling finishes.

- **Versatile design:** Works with most manufacturers' cable tray applications.
- **Support Bars provided:** Can be attached directly to multiple sizes of threaded rods.
- **Multiple mounting options:** User-configurable mounting system, with included strap hardware, supports a wide variety of mounting configurations.
- **Adaptability:** Multiple openings provided to accommodate most access points available today.
- **Large capacity compartment:** 12 3/4" long x 9 1/2" wide x 3 1/8" deep opening provides space for most leading manufacturers' AP products.
- **Galvanized steel construction:** For maximum strength.
- This product meets the material restrictions of RoHS
