WyreStorm recommends reading through this document in its entirety to become familiar with the product’s features before beginning the installation process.

**IMPORTANT! Installation Requirements**

- Visit the product page to download the latest firmware, document version, additional documentation, and configuration tools.
- Read through the **Wiring and Connections** section for important wiring guidelines before creating or choosing premade cables.
- While this product supports CEC, WyreStorm cannot guarantee compatibility with all forms of CEC communication.

**In the Box**

- 1x RXV-70-4K Receiver
- 1x IR Emitter
- 1x IR Receiver
- 2x Mounting Brackets
- 1x 3-pin Phoenix Connector
- 1x Quickstart Guide (this document)

**Basic Wiring Diagram**

[Diagram showing the connection points and key for the RXV-70-4K receiver, including HDMI, Power, and Control System.]

**Note:**

Not required if powering the receiver via PoH.

**IMPORTANT!**

• Visit the product page to download the latest firmware, document version, additional documentation, and configuration tools.
• Read through the **Wiring and Connections** section for important wiring guidelines before creating or choosing premade cables.
• While this product supports CEC, WyreStorm cannot guarantee compatibility with all forms of CEC communication.

**In the Box**

- 1x RXV-70-4K Receiver
- 1x IR Emitter
- 1x IR Receiver
- 2x Mounting Brackets
- 1x 3-pin Phoenix Connector
- 1x Quickstart Guide (this document)
Wiring and Connections

WyreStorm recommends that all wiring for the installation is run and terminated prior to making connections to the switcher. Read through this section in its entirety before running or terminating the wires to ensure proper operation and to avoid damaging equipment.

⚠️ IMPORTANT! Wiring Guidelines

- The use of patch panels, wall plates, cable extenders, kinks in cables, and electrical or environmental interference will have an adverse effect on signal transmission which may limit performance. Steps should be taken to minimize or remove these factors completely during installation for best results.
- WyreStorm recommends using pre-terminated HDMI and DP cables due to the complexity of these connector types. Using pre-terminated cables will ensure that these connections are accurate and will not interfere with the performance of the product.

IR TX/RX Guidelines

- Using WyreStorm infrared emitters and receivers is the best way to ensure that most IR coding formats are transmitted and received. Other 3rd party emitters and receivers can be used; however, these devices must operate in the same manner as the WyreStorm devices.
- Due to differences in IR across 3rd party control systems, their IR ports should never be connected directly to a NetworkHD system as an incompatibility may exist. WyreStorm offers a cable that compensates for voltage differences as well as adjusts for differences in the pins used within the port. Refer to the CAB-IR-LINK product page for more information.

IR TX Port Pinout

Connection for IR TX (transmit) uses a 3.5mm (1/8in) mono plug.

IR RX Port Pinout

Connection for IR RX (receive) uses a 3.5mm (1/8in) stereo jack that outputs +5V DC to power the included IR receiver.

RS-232 Wiring

The RXV-70-4K uses a 3-pin RS-232 with no hardware flow control. Most control systems and computers are DTE where pin 2 is RX, this can vary from device to device. Refer to the documentation for the connected device for pin functionally to ensure that the correct connections can be made.
Setup and Configuration

RS-232 Mode Settings
The RS-232 connector is used to transmit RS-232 over HDBaseT to the remote location and for firmware updates. Ensure that the RS-232 Mode switch in the proper position for the operation being performed. This connection is only available on version 1 of this product.

<table>
<thead>
<tr>
<th>RS-232 Mode</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Normal</td>
<td>Set the mode switch to Normal to transmit RS-232 signals from the TX to the RX for controlling devices in the remote location.</td>
</tr>
<tr>
<td>Update</td>
<td>Set the mode switch to the Update position to install a firmware update in either the TX or RX.</td>
</tr>
</tbody>
</table>

EDID Configuration
This receiver uses EDID pass-through from the display to the source. No configuration is required for EDID settings.

Troubleshooting
No or Poor-Quality Picture (snow or noisy image)
• Verify that power is being supplied to the transmitter and receiver.
• Verify that the fiber cable is properly terminated.
• Verify that the output resolution of the source and display is supported by this extender.
• If transmitting 3D or 4K, verify that the HDMI cables used are 3D or 4K rated.
• Verify that all source and HDBaseT connections are not loose and are functioning properly.

No or Intermittent 3rd party Device Control
• Verify that the RS-232/Ethernet cables are properly terminated.
• Verify that emitters/receivers are compatible with WyreStorm IR.
• If using an IR control system, verify that it is connected using the CAB-IR-LINK cable.
## Specifications

### Supported Standards

- DCI
- RGB
- HDR
- HDR10
- Dolby Vision up to 30Hz
- HLG
- BT.2020
- BT.2100

### Maximum Pixel Clock

- HDMI: 600MHz
- HDBaseT: 297MHz

### Communication and Control

- **HDMI**
  - HDCP 2.2
  - EDID
  - CEC
  - DVI-D supported with adapter (not included)

- **HDBaseT**
  - HDMI
  - HDCP 2.2
  - EDID
  - CEC
  - 1-way PoH to Receiver
  - Bidirectional IR

- **CEC**
  - CEC Pass-through
  - Requires CEC compatibility between source and display

- **Ethernet**
  - 1x Ethernet: 8-pin RJ-45 Female
  - Bidirectional over HDBaseT

- **IR**
  - 1x IR RX 3.5mm (1/8in) TRS Stereo
  - 1x IR TX: 3.5mm (1/8in) TS Mono
  - Bidirectional over HDBaseT

- **RS-232**
  - 1x RS-232: 3-pin Phoenix
  - Bidirectional over HDBT

### Power

- **Power Supply**
  - 12V DC 2A

- **PoH**
  - 48V 15.4W

- **Max Power Consumption**
  - 8.68W

### Environmental

- **Operating Temperature**
  - 0 ~ +45°C (32 ~ +113 °F)
  - 10% ~ 90% non-condensing

- **Storage Temperature**
  - -20 ~ +70°C (-4 ~ +158 °F)
  - 10% ~ 90% non-condensing

- **Maximum BTU**
  - 29.6 BTU/hr

### Dimensions and Weight

- **Rack Units | Wall Box**
  - <1U

- **Height With | Without Feet**
  - 20.5mm/0.81in | 20mm/0.79in

- **Width With | Without Brackets**
  - 193mm/7.6in | 150mm/5.91in

- **Depth With | Without Handles**
  - 74.4mm/2.93in | 74.4mm/2.93in

- **Weight**
  - 0.4kg/0.88lbs

### Regulatory

- **Safety and Emission**
  - CE | FCC | RoHS
